

# Run

Cale Dodds

Whatcha say now?  
Whatcha say now?  
Whatcha say now?  
Whatcha say now?

Well, we dound our loce down by the river  
In my old man's truck, just wanting to kiss her  
She said there's a storm closing in, so we turned back around  
I said let's stay right here, let's ride it out

Whatcha say now?  
Whatcha say now?  
I can feel it on the tip of your tongue  
You're afraid of love, you're not the only one

Whatcha say now?  
Whatcha say now?  
Is there any chance for us?  
With a heavy heart, like a loaded gun  
You've got no where left to run

The storyline and I can feel it  
Can you hear me now, its like we're near it  
I got a hand on your pocket and the other ones on the wheel  
I've been driving all night & now its your turn to steer

Whatcha say now?  
Whatcha say now?  
I can feel it on the tip of your tongue  
You're afraid of love, you're not the only one

Whatcha say now?  
Whatcha say now?  
Is there any chance for us?  
With a heavy heart like a loaded gun  
You've got no where left to run

Its a long road its a long drive but if you want to, we'll drive it all night  
Baby there's no where left to hide

Whatcha say now?  
Whatcha say now?  
Whatcha say now?  
Whatcha say now?  
I can feel it on the tip of your tongue  
You're afraid of love, you're not the only one

Whatcha say now?  
Whatcha say now?  
Is there any chance for us?  
With a heavy heart, like a loaded gun  
You've got no where left to run
