

What We Gonna Do About It

Cale Dodds

We're three drinks deep, we worked all week
Got the tab wide open
And the dance floor's empty (Yeah)
Damn that drummer's on a real good beat (Big bro)
And you know if I'm going
Then I'm takin' you with me

We got a choice, we gotta choose
At the end of the day we got nothin' to lose
Come on!

We've been waitin' on a night like this
On a night like this
See me ride like this
We've been lookin' for a good excuse
Yeah a good excuse
To get a little loose, you know
We got the whole night
We got the moonlight
Ain't no better time than now, yeah
We've been waitin' on a night like this
On a night like this
So what we gonna do about it
What we gonna do about it
(Okay, okay, come on)

We goin' old school, we gonna sing
We gonna party like it's 1993
And if you know it, then raise a cup
'Cause we ain't goin' down till the sun comes up (You know it)

We've been waitin' on a night like this
On a night like this
See me ride like this
We've been lookin' for a good excuse
Yeah a good excuse
To get a little loose, you know
We got the whole night
We got the moonlight
Ain't no better time than now, yeah
We've been waitin' on a night like this
On a night like this
So what we gonna do about it
What we gonna do about it
(Come on, come on)

So hey let 'em stay in
We goin' out
Never as young as we are right now

We've been waitin' on a night like this
To get right like this
We've been lookin' for a good excuse
A good excuse
To get a little loose, yeah

We've been waitin' on a night like this

On a night like this
See me ride like this
We've been lookin' for a good excuse
Yeah a good excuse
To get a little loose, you know
We got the whole night
We got the moonlight
Ain't no better time than now, yeah
We've been waitin' on a night like this
On a night like this
So what we gonna do about it

What we gonna
Tell me what we gonna do
Baby what we gonna do about it
Girl what we gonna
Tell me what we gonna do
Baby what we gonna do about it
