

2 Steppin' In The Spirit

Caleb Gordon

2000 EST

Yeah

Spirit eating good
And the flesh getting anorexic
God got big plans
I ain't even been to Texas
Ball like I switched hands
You don't know where I'm headed
I don't do the back and forth
Nah, we ain't playing tennis
Rebound, Jump back
I feel like Dennis
Sin tried to hold me down
No, I won't let it
Devil tried to talk it out
Like he don't see the exit
Read the work and walk it out
It got my spirit 2 steppin'

(Ayy)

No, I ain't perfect
But, you perfection (Ayy)
Purchase, Worth it
I believe it cause you said it
Why you always showin' love
Sometimes I don't get it

And you still ain't cut me off
All the times that I messed up
Trouble tried to keep me down bad
But, I'm blessed up
Can't keep all the peace
Gotta spread to the rest, uh
Still got homies that blow trees
To keep the pain away

Gotta tell them that there's more to life than this
Watch what you run to when this life feel like a brick
You know who really love you when you down up in that ditch
(You know who really love you when you down up in that ditch)

It get hard sometimes
I kno-o-ow
It get dark outside and co-o-old
But don't let that change your soul
You can always come back home

Spirit eating good
And the flesh getting anorexic
God got big plans
I ain't even been to Texas
Ball like I switched hands
You don't know where I'm headed
