

3 Wit Me

This that O-C-O-E-E

Huh, three with me, I keep three with me
Three with me, I keep three with me
Three with me, I keep three with me
Three with me, I keep three with me

Huh, everywhere I walk, I keep three with me
Everywhere I talk, I keep three with me
Huh, three with me, huh, three with me
Huh, everywhere I go, I keep three with me

I keep three with me, don't need a pistol
You gon' give my mind clarity, crystal
Had to let the pain go, like dismissal
Hold the Spirit flamethrower, You the missile
Father on the throne, sin getting gone
Can you take control? Fillin' up my soul
Can't do this alone, can't do this alone
Be there when it's rocky, Sylvester Stallone
Luci wanna pop up, but that'd get you gone
Sendin' up the oppa, it's angels at your door
Three hopped in that fire, but uh-uh, it's four
Three hopped in that fire, but uh-uh, it's four

Huh, three with me, I keep three with me (Three with me)
Three with me, I keep three with me (Three with me)
Three with me, I keep three with me (Three with me)
Three with me, I keep three with me (Three with me)

I keep three with me just like on Air One
Remember I was makin' plays off a Samsung
I was really in that thing like I'm Dan Young
'Til You took the cross over like the answer
Uno, dos, tres, trade with me just like Atlanta, huh
What the Son say? Know I'm pickin' up on every call
Only one way, hit the city, gotta tell the dogs
No interrogation, hit the Word and I'ma tell it all

Three with me, I keep three with me
Three with me, I keep three with me (I keep three with me)
Three with me, I keep three with me
I keep three on me, three on me (I keep three with me!)
Huh, everywhere I walk, I keep three with me
Huh, everywhere I walk, I keep three with me
Huh, everywhere I talk, I keep three with me
Three with me, I keep three with me
