Came Way Too Far

Caleb Gordon

Ayy, 2000, E-S-T
O-C-O-E-E
Yeah, yeah

I came way too far (Hallelujah), don't care what I used to do
I got drive, brand new car, yeah, we headed straight for the moon
Yeah, we headed straight up to Mars
No you can't ride with me if you ain't up to par
Yeah, we headin' straight for the stars
Don't let 'em tell you you aimin' too far
So go ahead and sound the alarm
I said go ahead and sound the alarm
We gon' pull up and show them who you are
Enemy lyin', he actin' like Scar
Stuck, no you can't pull us apart
Stuck, no you can't pull us apart
Up, I got the light on me, yeah, I got the light, Pixar
Enemy can not take what is ours
Stand up, we gon' walk through the dark
Lay up on my feet, I know you'll walk with me even when it gets hard
Walk with me when I pull out my car
They just wanna see me fall
They don't know that I got a hand full of hearts
I got a hand full of hearts

You started, I'm gonna finish what you started
Too heartless, remember back then I was too heartless, yeah
You started, I'm gonna finish what you started
You started, I'm gonna finish what you started

I came way too far (Hallelujah), don't care what I used to do
I got drive, brand new car, yeah, we headed straight for the moon
