

# Catch a Vibe

Caleb Gordon

Ayy, 2000, E-S-T  
That's that O-C-O-E-E

Can you catch a vibe  
We don't gotta hide  
Look up to the sky  
We already fly  
Cut off all that pride  
Put it to the side  
Take that up with God  
Take that up with God

Cataract had me lost (Lost), Jesus brought me that sauce (Huh)  
You goin' with that boss, know He already counted the cost  
With the Holy one, no ghost, like, "Ayy, I carry that cross"  
I was sick of the kid that coughed  
Now I'm watchin' the Word like a hawk

Hey, better not get out of line  
Got an angel that sit on my side  
I was tired of livin' the lie, woah-woah  
Ain't no more runnin' and hide  
And the fear, I can't let it reside  
Need Your Spirit and I need Your mind  
Come over here when I ready to decide  
Like the track, know I'm runnin' with God

I'm right here, oh, Lord  
You gon' take away the field, oh, Lord  
I'ma lay right here 'cause You will never let me down

Can you catch a vibe (Vibe)  
We don't gotta hide (Hide)  
Look up to the sky (Sky)  
We already fly (Fly)  
Cut off all that pride (Pride)  
Put it to the side (Side)  
Take that up with God (God)  
Take that up with God (Big God)

Couldn't see like three blind mice, Jesus sittin' on my right  
Can't lose Him, we up like kites  
Remember life, it was darker than night  
Got a helmet on me like a knight  
Split the Word and it cut like a knife  
I told my dogs, they don't gotta fight  
Two wrongs, they don't make a right  
Hey, better not get out line

Hey, better not get out of line  
Got an angel that sit on my side  
I was tired of livin' the lie, woah-woah  
Ain't no more runnin' and hide  
And the fear, I can't let it reside  
Need Your Spirit and I need Your mind  
Come over here when I ready to decide  
Like the track, know I'm runnin' with God

I'm right here, oh, Lord  
You gon' take away the field, oh, Lord  
I'ma lay right here 'cause You will never let me down

No hot, yeah, just God  
We fly, yeah, pride  
To side, and God  
We got-

Can you catch a vibe  
We don't gotta hide  
Look up to the sky  
We already fly  
Cut off all that pride  
Put it to the side  
Take that up with God  
Take that up with God
