

Church Jumpin

Caleb Gordon

Yeah, yeah, yeah
Aye, 2000 E-S-T (Whoo, whoo)
Yuh, aye, O-C-O-E-E (Whoo, whoo)

I got the church jumpin', like it was in a trap house (Hyeck!)
Flippin' the Word up
We flip through the script, like we cookin' a burger (Skrtrt)
We be all the way turnt up, to the max (To the max)
I think we need a little more (Whoo, whoo)
I think we need a little more (Whoo, whoo)
We bout' to put the city on (Hey, ayy)

I got some homies that tell me they'll never step up in the church
I be like, "Why?"
They tell me that they don't wanna be judged or criticized
Open yo' eyes
How you gon' push away the one that He died for?
That ain't a vibe
You is a sinner, remember the time
Only real eyes realize what's on the line
Ain't so ready to die go to Heaven
I ain't stressin', I'm bringing it here
Sorry, I cannot wait for the reverend
Spread the Kingdom to all of my peers
Can't wait for him to show me the Scripture
If I did, I'll be waiting for years
Know the answer to all of the tears I cry
Cry, here

I got the church jumpin', like it was in a trap house
Flippin' the Word up (Ohh, oh)
We flip through the script, like we cookin' a burger (Mm)
We be all the way turnt up, to the max
I think we need a little more (Whoo, whoo)
I think we need a little more (Whoo, whoo)
We bout' to put the city on (Ahh)

Oh, Loor-ho-ho-ho (Hmmm)
Where do I begin?
Lot of you think that the first verse is because I want you to be locked in the crib (You is wrong)
No-ho-ho-ho-ho
That ain't the answer, at all
What is to of us three when you gather together
That's when His presence will fall (Haa-ahh)
So why would you not go to the steeple?
That's where He went and gathered all his people
You need a brother to help fight the evil, dawg
(Why you so Captain America?)
Oh, so you don't agree what's going on?
Well why don't you speak up and say some'
If you tolerate, it won't change nun'
You don't like it, then find another one
I agree that some churches be trippin' (I went to one)
But ain't no way you went through the whole world
It might be one right there in your city (Right there)
You need someone outside of yourself (Uh)

Someone that can speak into your life
Boy, you better go cover your head (You better)
You can't be out here riskin' your life
Go get it right

I got the church jumpin', like it was in a trap house
Flippin' the Word up
We flip through the script, like we cookin' a burger (Mm-mmh)
We be all the way turnt up, to the max (Ha, ha)
I think we need a little more (Whoo, whoo)
I think we need a little more (I knew you)
I think we need a little more, huh
I got the church jumpin', like it was in a trap house
Flippin' the Word up
We flip through the script, like we cookin' a burger (Mm-mmh)
We be all the way turnt up, to the max (Ha, ha)
I think we need a little more (Whoo, whoo)
I think we need a little more (I knew you)
I think we need a little more, huh

Take it behind the church, boy
I'm goin' right now, I'm goin' right now
I said, "You better take it behind the church, boy"
I'm goin' right now, I'm goin' right now
I said, "You better take it behind the church, boy"
I'm goin' right now, I'm goin' right now
