Caleb Gordon

Whenever you in trouble
Don't let it burst yo' bubble
Whenever you in trouble
Don't let it burst yo' bubble
Yeah, yeah

Only way is up, we gon' elevate, yeah
The only way is up, we gon' elevate ya
The only way is up, let Him elevate ya
Let Him elevate ya
The only way is up, let Him elevate ya
Only way is up, let Him elevate ya
Let Him elevate ya, let Him elevate ya
Yeah, yeah, yeah

AYY
Just 'cause something make you happy don't mean they gon' smile
Don't let that bring you down
Don't let it kill the vibe
We not the same, the folks I rock with on a different time
So watch, without a Rolly, we gon' diamond shine
Holy Spirit God
Can't have a double mind
I'm sorry, I can't jam and watch if it don't edify
I'm screamin', "Yahweh" 'til the death of me, I let it fly
Even though we never die, Devil try to tell the lies
Like, "Why even try?"
No, I ain't perfect but I'm made perfect in Heaven's eyes
Been forgiven but I know change don't happen overnight
That's why the spirit is in the gym, it's doin' overtime
Feed it 'til it's oversized
Trust me, it ain't easy but the yolk is light
66 keys, open sesame, abundant life
It's rules to the game, you gotta play it right
You get out what you put in, so I'm up late at night
Yeah, yeah, yeah

Only way is up, we gon' elevate, yeah
The only way is up, we gon' elevate, yeah
The only way is up, let Him elevate ya
Let Him elevate ya

Look, ayy
While they sleep, I'm makin' hits
Cookin' up just like some grits
Spit that heat, you need a mit'?
Run it back more than twice
Keep the wisdom on display
Tell the homies, "Count that cost, think of that risk before you lay"
"Before you put your Tostito in that dip, step back and think"
"Is she really worth the chip? 'Cause once your lips get a taste"
"It's gon' be hard to get away"
Practicin' abstinence
Had to step back like I play for Houston
Got revelation
Now, I'm back on track like Tony Steward
Yahweh got my mind aligned, now, my thoughts is on a skewer

Every day, I'm feelin' newer
Friends gettin' fewer
'Cause I'm startin' to learn the difference between close friends and aquaintances, uhn
Not everyone you let inside
Had 12 but in that garden, only three was by His side
Still, one of them denied
Judas was switchin' sides
He still showed compassion, He knew it would happen
People gon' do me wrong but can't let that affect my actions
'Cause God can flip a bad situation just like gymnastics
I just let Him have it
Yeah, hm
I just step back and let Him have it

We gon' elevate, yeah
The only way is up-
I just step back and let Him have it
We gon' elevate, yeah
The only way is up, we gon' elevate-
We gon' elevate, yeah

The word "Eden" means spot
It means delightful spot
It means open door
It's a complicated word
It's a spot on the Earth where for the moment
God has an open door from Heaven on Earth
That's where God put the man, in His presence
So that's why we can't find Eden today
Eden is not a place, it's an environment

Huh
So for real, so for real (Yeah, yeah)
Yeah, yeah, so for real
Huh, the only way is up, we gon' elevate ya (So for real)
The only way is up, we gon' elevate ya (Yeah, so for real)
Welcome to Eden, welcome (I told 'em, I said,)
Welcome, welcome ("People quick to dis")
Welcome, welcome ("What they don't understand")
Welcome, welcome ("So we gon' help 'em understand")
That's why we gon' see better days

To be continued
I'm finna hop on, let's get it
I can have anything I want
I can have anything I need
Forbidden fruit fallin' from the tree
Is it really benefiting me?
We gon' rock and roll with the King
Bruh! [*rewind*]
Bruh, the song over, bruh
It's like 2am, tryna do homework, bruh
