

Frostbite

Caleb Gordon

Aye, some people say they want it but like
I feel like they don't really believe in-, you know
You know, when God give you a purpose, it's like
You gotta do everything you can to make it happen, it's like
'Cause a lot of people gon' try to tell you to do it this way
And do it that way, it's like nah
I'ma do it the way God told me to do it, you feel me?

Mind's changed, we ain't on the same thing
Aye, same story, we just on a different pace
Nah, I ain't Spider-man, I don't need Mary Jane
But they like, "How you get so high without an airplane?"
It's gon' be some dark nights when you livin' like you Bruce Wayne
Play yo' cards right, don't let 'em tie you up, shoestring
Know the heart lies, I just bob and we don't mood-swing
Don't get frostbite tryna rock with me and my gang

Aye, off top, 180
Whole year went crazy (Yeah)
Ten toes on the pavement
Right where God placed me (Right there)
Take a mind and replace it (Uhun)
With fundamentals and the basics (Get basics)
Dreams, wisdom, and patience (Patience)
Any problem I face it (Face it)
What'chu call that? Greatness (Yeah)
What'chu call that? Gracious (Yeah)
Didn't think I would be here right now but I made it (I made it)
We L-I-T, can't pipe down, we goin' crazy (Goin' crazy)
Got the victory-ey right now, can't nun faze me (Faze me)
Yeah, yeah, 38 hot, still you won't get a reaction from me
Colder than three winters
Devil a thief, say Jesus name, he gon' flee
Uhn, just like a flea-flicker
Roll with the team, all you gotta do is believe
G-O-D always gon' be witcha
Ain't the same one I used to be-e-e, yeah, 'cause

Mind's changed, we ain't on the same thing
Aye, same story, we just on a different pace
Nah, I ain't Spider-man, I don't need Mary Jane

Frostbite, it get cold runnin' in the snow
Frostbite, it get cold runnin' in the snow (It get cold)

Just make sure you got your coat, when you on the road

Tryna live this life, it get icy (It get icy)
Tryna live this life, it get pricy (It get 'xpensive)
I just need Your light to guide me (I just need Your light-)
Yeah, I just need Your light to guide me (It get cold)

Not talkin' AI, I'm ballin' like Kobe
This pace was a practice for me
Don't care what they say, I- (Uhun)
Was down, they askin' me how I got back on my feet (Got back)
I just hopped in the passenger seat (Uhun)
G-O-D told me, don't worry what happen to me
It get cold, it get slippery
And I'm slippin' and slidin' with You, runnin' with the King
All that glitters ain't gold, it's Monopoly
I'm protectin' my spirit so consciously (For real)
Know the devil gon' try put a stop me
Know he can't because Jesus gon' walk with me (Okay)
Feelings rise and they fall like economy (They do)
That's okay 'cause I know who I gotta be
We just out here fulfillin' the prophecy
Livin' anomaly, ever since my
