Caleb Gordon

Aye aye aye

I just woke up feeling great (feelin' great)

I just woke up feeling great (okay)  
I just woke up feeling great (okay)  
I just woke up feeling great  
I just woke up feeling great uh  
I just woke up feeling great (ay)  
I just woke up feeling great (okay)  
I just woke up feeling great

Aye, no it ain't no mistake (no no)  
I just woke up feeling great (feelin' great)  
I just woke up feeling great (feelin' great)  
I just woke up feeling great (okay)  
Uh hol up  
Hol on  
Wait (Hol on wait)  
Before I start my day gotta pray (gotta pray)  
Before I start my day gotta pray (amen)  
Uh Ah, Thanks  
I gotta give him thanks  
Open up the word what he say (yuh)  
Open up the word what he say (oh yuh)  
Had it in my heart meditate (in my heart meditate)  
He told me not to worry about a thing (oh no)  
He told me not to worry about a thing (don't do it)  
Homie don't you know we got a sign (yuh)  
Had to go switch up the lane (I switched)  
Most people talking about the script' (oh)  
They ain't even read the whole thing (ain't even read the whole thing)  
They ain't even know why Jesus came (yahuh)  
Take it all in with a grain of salt  
Can't you believe everything  
It's the love at the end of the day

I just woke up feeling great  
I just woke up feeling great  
I just woke up feeling great uh  
I just woke up feeling great uh  
I just woke up feeling great uh  
I just woke up feelin' great uh  
I just woke up feelin' great uh  
I just woke up feeling great

And I stay with that armor like Tony Stark  
Though they hatin' keep building like Noah's Ark  
It's on people I gotta love from afar  
Cause yo actions gon show me what's in your heart  
Woke up feeling fantastic, not talking Ford  
Like a corner don't know what God got in store  
Yeah he know what I need I don't ask for more  
Yeah he know what I need I don't ask for more  
Build me up

Christ gotta break that down  
Layin' on the seat won't believe what I found  
I know my God he cover me like surround  
I'm not ashamed to put my knees to the ground  
We keep it up but won't stress when we down  
Know it's a test enemy tryna take me out  
Script the clit we aimin' at the enemy neck  
Flip the switch we turnin' on all the lights in the darkness  
Honest though we followin' The King regardless  
Black to wall a hundred' like we still chargin'  
Talkin' down can tell you don't know who my God is  
I just woke up feelin' great and good  
There ain't no point in complaining  
I woke up feeling amazing  
Ain't had to do it he gracious  
You sleep if you think I'ma waste it  
Give me a chance I'ma take it  
Chillin' in my situation  
It matters how you wait on walk while I'm waiting  
No, I'm not good enough still fighting temptation  
The Devil lyin' tryna say I won't make it  
Say one more thing  
I dare you to say it  
You lie through your teeth  
You cannot offend me  
And my generation  
Don't care what you saying  
As long as I wake up with breath in my lungs  
I know the commission we gettin' it done  
I know that the battle is already won  
No more chasin' and downin' the drugs

Can't be like the brother that stayed with the crew  
While his brother was eatin' with pigs  
I don't care if it's mud on my kicks  
If it's you then I gotta go get it  
I'm bringing you home  
Give you a ring and a robe  
Let's have a feast with The Father we lit
