

# Guard My Heart

Caleb Gordon

Drop the bassline

Spent a whole lotta time in iso', I had to guard my heart  
What you gon' do when your life is gone? I had to play my part  
Wake up, pray, my knee to the ground, that's how my day gon' start  
Say Your Word, I'll walk it out and play that in my heart

Say Your Word, I'ma write that down, I'ma put that in my notes  
I was livin' my life like a foster child, like I ain't even know my folks, h  
uh  
Thoughts inside, they fly around, try to keep me on that flow, huh  
I just take that higher ground and share with you my soul, huh

You know it all, still I share my heart then lean on You, huh  
I put the team on You, every day, You makin' me like You  
All the foolish things I did, can't put the blame on You, huh  
I put the pain on You, I put the guilt and the shame on You, huh

Spent a whole lotta time in iso', I had to guard my heart  
What you gon' do when your life is gone? I had to play my part  
Wake up, pray, my knee to the ground, that's how my day gon' start  
Say Your Word, I'll walk it out and play that in my heart

Say Your Word, I'ma walk that out, I'ma keep that on my brim  
I'ma stay wise, patient, way they talk won't hurt my limbs  
Enemy tryna keep my mind on everything I'm not  
Big-time manager, I manage what I got

I'm seein', Lord, look how quick we turn people to idols  
Soon as they start fallin' short, we sayin' we don't like 'em  
The Word say ain't no perfect people, you must ain't read your Bible  
Jesus top priority, we higher than the Eiffel

Spent a whole lotta time in iso', I had to guard my heart  
What you gon' do when your life is gone? I had to play my part  
Wake up, pray, my knee to the ground, that's how my day gon' start  
Say Your Word, I'll walk it out and play that in my heart, huh

Huh, play that in my heart  
Ha-ha-ha, play that in my heart

Me and my house gon' serve the Lord, can't say nothin' 'bout yours  
I ain't worried 'bout his or hers, I'ma go get in that Word

Ha, I'm 'bout to get in that Script  
Holy Spirit elevated, You gave me a lift  
All the money in the world couldn't pay for sin  
So You paid the fee and gave it as a gift

Spent a whole lotta time in iso', I had to guard my heart  
What you gon' do when your life is gone? I had to play my part  
Wake up, pray, my knee to the ground, that's how my day gon' start  
Say Your Word, I'll walk it out and play that in my heart
