I Got Blessings

Caleb Gordon

Ayy, 2000, E-S-T
O-C-O-E-E

I say woah I got blessings
Woah I got faith
Ooh, woah I got blessings
Woah I got faith
Woah I got blessings
Woah I got faith
Woah I got blessings
Woah I got faith, woah

You can make it through that storm, show me what you made of
You can make it through the storm, show me what you made of
You can make it through the storm, show me what you made of
You can make it through the storm, show me what you made of

Woah, where is He going?
Twenty-four hours you always stay open
[?] I'm keeping my focus
You make forever feel like a moment
I keep it going
Man I just rap it just like I was rowin'
Down into Akron, I know that He going
When my dawgs get out of line, I'ma lower
When my dawgs get out of line, I'ma lower
Hear you callin' me, know that I'm on go
Hear you callin' me, know that I'm on go
Hear you callin' me, know that I'm on go
Hear you callin' me, know that I'm on go
Woah, two is better than one, you know that
Woah, you know that, right, you know that
Talk, you gotta say somethin'
You know that I came too far but you can't go back
All that I need is you, nobody else, yeah
Know that you're never too far, I need you, I need you

I say woah I got blessings
Woah I got faith
Ooh, woah I got blessings
Woah I got faith
Woah I got blessings
Woah I got faith
Woah I got blessings
Woah I got faith, woah

You can make it through that storm, show me what you made of
You can make it through the storm, show me what you made of
You can make it through the storm, show me what you made of
You can make it through the storm, show me what you made of

I got a light on me and it shine like strobe
We stay lowkey, stay out my doom
You got no keys, stay away from my door
I gotta watch who I let in, woah
I got binoculars on me
I see you comin' from a mile away

I got the Rock with my, stony
I had no options, I had to go get it
You be tellin' big lie, big lie, truth gon' set you free
Deja Vu, feel like I've been in this movie
When I fall apart you put me back together
You show me patience and peace, that's forever

I say woah I got blessings
Woah I got faith
Ooh, woah I got blessings
Woah I got faith
Woah I got blessings
Woah I got faith
Woah I got blessings
Woah I got faith, woah

You can make it through that storm, show me what you made of
You can make it through the storm, show me what you made of
You can make it through the storm, show me what you made of
You can make it through the storm, show me what you made of

I got a light on me
I got a light on me
