Brand new life with the bae, Imma pop off
Tryna block me but I'm still gettin' shots off
Kick it with the King, let the Spirit knock your socks off
Took one hit, now I'm fienin when God call
Lord, please hit my line up
Your Word got me elevated, got my mind up
Enemies think he got me pressed, tryna size up
Spin back then pew like that boy from Carolina

Pew pew pew pew pew let it all go
Pew pew pew pew pew let it all go

Them boys gon' talk out their neck but it's all smoke
Everyday I change up my mind like I change clothes
Tryna lock me up in my past but it's case closed
Pray all my dawgs see the God and that's the main goal
I just got a Nissan, I drive it like a Range Rover
In the field with cleats on, really in the clay though
DJ from the old, and the DJ from the beta
We gon' bring the kingdom till I 52 stage, dawg
Lucy tryna tell what I got, then it's play ball
Know that G-O-D gon' help me carry all this weight though
Sometimes I don't wanna try no more
When it's sunshine I know I don't wanna cry no more
The Spirit tell me "go", then it's vámonos
We gon' go 'till the birds can't fly no more

Pew pew pew pew pew let it all go
Pew pew pew pew pew let it all go
Pew pew pew pew pew let it all go
Pew pew pew pew pew let it all go

How could You be so -
Real life? I had to cut off my ego
I was chasing after green lights silo
Stop chasing and it came like Magneto
Why would I chase bread and then lose peace?
I don't wanna lose my fam over lose sleep
I don't want to lose my friends over cottage cheese
I ain't tryna live life alone over broccoli

They like how I get up in my zone, it's cause I got the keys
Switchin' lanes on i4, tryin' not to speed
I was just tryna get a job off of indie
Who knew that boy from clock-row would be an MC?

Pew pew pew pew pew let it all go
Pew pew pew pew pew let it all go
Pew pew pew pew pew let it all go
