

# Maintain

Caleb Gordon

Uh, 2000, E-S  
Yeah, O-C-O-E-E

We've been stackin' up to maintain, just to maintain  
The money, it don't change things, it don't change things  
G-O-D, He be the main thing, be the main thing  
I can't ride wit' you if we ain't on the same wavelength  
That's how it is when you live a life for the chosen  
He gives you a whole new focus  
No, I can't move like the other side  
Can't be out here runnin' from the locusts

Can't be out here movin' like I'm Pharaoh  
God, He use my mind, I ain't no scarecrow  
Haha, heart tried to go diamond  
You took all the heat so I could let go  
Ha, don't think we in Kansas anymore  
I just couldn't stand it anymore  
Now I'm all in  
Took me from the water to the shore  
To show me how it's solid in the cold  
Yeah, yeah

Don't build my house on sand  
On solid rock, I stand, uh-huh  
Trust in Your way, Your plan  
Even when I don't understand

We've been stackin' up to maintain, just to maintain  
The money, it don't change things, it don't change things  
G-O-D, He be the main thing, be the main thing  
I can't ride wit' you if we ain't on the same wavelength  
That's how it is when you live a life for the chosen  
He gives you a whole new focus  
No, I can't move like the other side  
Can't be out here runnin' from the locusts

See the road I'm walkin', it be narrow  
Y'all love in my heart with the arrow, aha  
Heart tried to go diamond  
But You made it through to my soul

We've been stackin' up to maintain, just to maintain  
The money, it don't change things, it don't change things  
G-O-D, He be the main thing, be the main thing  
I can't ride wit' you if we ain't on the same wavelength  
That's how it is when you live a life for the chosen  
He gives you a whole new focus  
No, I can't move like the other side  
Can't be out here runnin' from the locusts

Won't build my house on sand  
On solid rock, I stand, uh-huh  
Trust in Your way, Your plan  
Even when I don't understand

I know that you'll work it out for me

Every day, You show me how I ought to be  
Know I'm gonna love You forever

We've been stackin' up to maintain, just to maintain  
The money, it don't change things, it don't change things  
G-O-D, He be the main thing, be the main thing  
I can't ride wit' you if we ain't on the same wavelength  
That's how it is when you live a life for the chosen  
He gives you a whole new focus  
No, I can't move like the other side  
Can't be out here runnin' from the lo-
