

# No Remorse

Caleb Gordon

It's that 2000 EST  
It's that O-C-O-E-E  
They be like, "What that mean?"  
I be like, "You gon' have to- see"

All of my dawgs is fade ready when it's smoke  
Know we ready for war (Rah, rah, rah)  
Enemies slide, we never scared  
Know we already stay with the sword (Keep a sword)  
Know I'ma stay with the source  
I keep the fire with me like the torch (Rah, rah)  
It stay on my mind all day  
I let it go with no remorse (Fah)

I'm letting it go  
I'm letting it go  
I'm letting it go  
Let it go with no remorse  
I'm letting it go  
I'm letting it go  
I'm letting it go  
Let it go with no remorse, yeah

Red letters, we gon' let it spray  
Luci leanin' like he MJ  
Spreading lies, tryna crash out, he gon' catch a clip like it's picture day  
Lil' bro tweaking, told him, "Hit the page,"  
You could live this life a different way  
People say they're loyal but they're never loyal  
Like the One who went and hit the grave  
Study like I'm tryna skip a grade  
Quit the typing, got you feeling brave  
Know in person you would never say  
'Stead of talking, you should try to pray  
Ever since I got a wedding ring  
Luci been poppin' his head again  
That's just what come with the new terrain  
Now me and shawty got better aim

I'm letting it go  
I'm letting it go  
Let it go with no remorse  
I'm letting it go (Go)  
I'm letting it go (No)  
I'm letting it go (Let that go)  
Let it go with no remorse (No, ay, ay, a-)

Verses playing in my head again  
Luci' knocking, I won't let him in  
Tryna get into the oval office but the guards 'round me like a president  
'Member back then, I was hesitant  
Flip the script, now I'm a better man  
Been a rookie in the game, I'ma show you how to take it to a veteran  
Show you how to take the long road  
Breaking down on the stronghold  
Love the OGs but I got to take it to a place they did not go  
Watch, I hit 'em with the cross-hold

See me spinnin' on a lost soul  
They don't know before we all go  
'Bout the One who paid it all for me  
Eh, eh, eh, eh, ehh, eh

All of my dawgs is fade ready when it's smoke  
Know we ready for war (Rah, rah, rah)  
Enemies slide, we never scared  
Know we already stay with the sword (Keep a sword)  
Know I'ma stay with the source  
I keep the fire with me like the torch (Rah, rah)  
It stay on my mind all day  
I let it go with no remorse (Fah)

I'm letting it go  
I'm letting it go  
I'm letting it go  
Let it go with no remorse  
I'm letting it go  
I'm letting it go  
I'm letting it go  
Let it go with no remorse

On my mark  
Right one there, this one, it's serious
