

Now I'm Found

Caleb Gordon

Aye 2000 EST

Yeah, ay

I don't believe in no wishing well, can't wish you well
Pray that God gone' keep you safe and sound, no waitin' 'round
Where my mind gone?
My thoughts screaming loud, You calm me down
Know what I'm on
So long I was lost, but now I'm found

Way, way different
Step back and listen
Hear what You saying, I don't wanna miss it
I hear the snake and I know that he hissin'
When I make a mistake, I get up, I ain't finished
Know the enemy, He tryina aim at my biscuit
I'm with the King, so you better not risk it
Walk with the King, so you better not try
How you gon' kill me, I already died
You can't take my wings, I fly
Way up to go meet the King in the sky
So many years with that dirt in my eye
But now I can see, glory to God
Glory to God
Glory to God
I walk in the truth, you still livin' a lie
I'm on the side, I ain't crossing the line
Had to pray away what's holdin' me back in my mind

I don't believe in no wishing well, can't wish you well
Pray that God gone' keep you safe and sound, no waitin' 'round
Where my mind gone?
My thoughts screaming loud, You calm me down
Know what I'm on
So long I was lost, but now I'm found

Now it's way, way different
Way, way new
Hop out the 4-door, this ain't a coupe
This a regular car that I treat like a foreign
I might mess around and put the stars in the roof
They think I'm a star when I walk in the room
That's 'cause the One who created the moon
They look at me, but I point at the Truth
I'm tellin' em all about Jesus
It's more to life than just rollin' the deuce
It's more to life than just drinking the Goose
I know it all lasts for a moment
Let me give you what you can never lose
This living water came straight from the Son
I took a sip and stopped chasing it all
It's crazy how I let it all go
Then He brought it back times two

I don't believe in no wishing well, can't wish you well
Pray that God gone' keep you safe and sound, no waitin' 'round
Where my mind gone?

My thoughts screaming loud, You calm me down
Know what I'm on
So long I was lost, but now I'm found
I don't believe in no wishing well, can't wish you well
Pray that God gone' keep you safe and sound, no waitin' 'round
Where my mind gone?
My thoughts screaming loud, You calm me down
Know what I'm on
So long I was lost, but now I'm found
