

On Me

Caleb Gordon

You gon' see me in the lobby
Everywhere I go, I keep the Spirit on me, yeah
White on, got me feelin' godly
Aye, protect what's in my Spirit, in my body
Lord, keep Yo' light shinin' on me
Will I follow You? Guess it's on me
Will I follow You? Guess it's on me
All on me, it's all on me, aye
Will I follow You? Guess it's on me
It's all on me, aye
Will I follow You? Guess it's on me

In the light, in the dark, know You been there, there, there, there
No, these demons don't fight fair, fair, fair, fair
Remember what you hold back there, yeah, yeah, aye
I know that You care, care, care, care, aye

I know that You care for me
I know You know me, won't leave me lonely
I will never dare to leave
Came a long way from my heart on my sleeve
From the top of my head to the sole of my feet
Yeah, I know who I am, yeah, I know who I be
Better than understand, now I'm startin' to see
Only You can provide that missin' peace
Aye, love on swole
Even when I don't feel, gotta love
You the light on the hill, let it glow
Show me what's real, really I don't know

You gon' see me in the lobby
Everywhere I go, I keep the Spirit on me, yeah
White on, got me feelin' godly
Aye, protect what's in my Spirit, in my body
Lord, keep Yo' light shinin' on me
Will I follow You? Guess it's on me
Will I follow You? Guess it's on me
Will I follow You? Guess it's on me
Will I follow You? Guess it's on me

Uh, even when the night callin'
Knew when they start a new day tomorrow
Shot-callin', know we gon' pop
How I know? 'Cause I just had a talk with my Father
Only gotta go, I'ma get that back
Brand new me through added tact
Run with the King, we never gon' lack
Only spit facts on facts on facts
On facts on facts on facts
I'll never leave like brand new tats
It's goin' down
You can't be sad

You gon' see me in the lobby
Everywhere I go, I keep the Spirit on me, yeah
White on, got me feelin' godly
Aye, protect what's in my Spirit, in my body

Lord, keep Yo' light shinin' on me
Will I follow You? Guess it's on me
Will I follow You? Guess it's on me
Will I follow You? Guess it's on me
Will I follow You? Guess it's on me

Even though I'm not perfect
You still show me that I'm worth it
You help me up when I'm hurtin'
It's easy as one, two, three, patiently
So long You waited for me
One, two, three, patiently
So long You waited for me
You gon' see me in the lobby
Everywhere I go, I keep the Spirit on me, yeah
White on, got me feelin' godly
Aye, protect what's in my Spirit, in my body
Lord, keep Yo' light shinin' on me
