I'm 'bout to pull up in that "Err", made the old me disappear  
My God pull up, just like, "Err", I know I don't gotta fear  
Demon pull up, I'm like, "Err", we gon' get 'em out of here  
Demon pull up, I'm like, "Err", we gon' get 'em out of here

Let's be clear, I'm a light, like I just pulled up on a deer  
Let's be clear, we in Eden, we gon' change the atmosphere  
Let's be clear, Jesus on the whip, but He still let me steer  
See, my will is free, like I got Will and Jada up in here  
Let's clear the air, early morning, I be cookin' in the lair  
When the enemy be captain hookin', we gon' take it there  
Get the script and I start Devin Booking, maybe Ja Morant  
I know the enemy can't stop me when the rock is in my hands  
Block me, if you can, no, you cannot block what's in His plan  
Stop the enemy, we lockin' up the darkness, it get clamped  
From Lake Eola Park to anywhere I am  
We gon' throw the script and they gon' catch it like it's second hand

'Bout to pull up in that "Err", made the old me disappear  
My God pull up, just like, "Err", I know I don't gotta fear  
Demon pull up, I'm like, "Err", we gon' get 'em out of here  
Demon pull up, I'm like, "Err", we gon' get 'em out of here

Let's be clear, I'm a light like LED up on all my wall  
And I shine for those who don't feel like making it at all  
When yo' eyes closed, it get hard to see where you are  
It's time to take off that blindfold and face all yo' thoughts  
Uh, I can't never be afraid when You gave me power, love, self-control  
When my heart's full of rage, You say, "Listen up and let it go"  
When my heart's full of pain, You told me You'd carry the heavy load  
Yo' word I tattoo in my mind, so I can't let it go

Pull up in that "Err", made the old me disappear  
My God pull up, just like, "Err", I know I don't gotta fear  
Demon pull up, I'm like, "Err", we gon' get 'em out of here  
Demon pull up, I'm like, "Err", we gon' get 'em out of here  
I'm 'bout to pull up in that "Err", made the old me disappear
