

Quick

Caleb Gordon

Ayy, 2000 EST
Where I'm from?
Ayy, where I'm from?
O-C-O-E-E

Put my head down to the ground, know this ain't as big as it gets
Holdin' my horses, I had to sit down, I was trippin' and takin' a risk
Just 'cause the time runnin' down on the clock, know that don't mean that yo
u gotta blitz
Just chill and be patient, keep workin' on you and you'll see that thing com
in' in quick

Ayy, but most of 'em quit
Before they see fruits of the labor, not me, 'cause I put too much work in t
he switch
Had to write that thing down on some paper, ain't no turnin' back, my dawg,
this is it
I ball, Mariano Rivera, I'm good where I'm at, I've been workin' my pitch
Bein' the answer to prayers from people is better than findin' a niche
I need me somebody with so many layers, a lot of these women be-
Surface, baby, what's your purpose?
I wanna give you the world, but you gotta show me you're worth it
I do not care how you twerkin', I wanna see how you worship, yeah, uh
And how do you act when we open the door and we leavin' the churches?
It's crazy how everything workin'
How could You take all my burdens?
Lord, I know that I ain't perfect
But when I go back to my dawgs, they see a whole different person
No, I don't care what they sayin', no, I don't care if they chirpin'
That's for the birds
Old me, like Usher, I wouldn't let it burn
People around me, I had to discern
Everyone act like they love you, they takin' they turn
Respect is what you gotta earn
Enemy lyin', get sprayed like a germ
He had to resign, we cuttin' his term
And G-O-D went set me straight like a perm
Now I ride with the Shepherd, I ride with the herd
(I really don't care what you heard)

Put my head down to the ground, know this ain't as big as it gets
Holdin' my horses, I had to sit down, I was trippin' and takin' a risk
Just 'cause the time runnin' down on the clock, know that don't mean that yo
u gotta blitz
Just chill and be patient, keep workin' on you and you'll see that thing com
in' in-

Can't you see how we comin' in?
Can't you see how we comin' in?
Got the Kingdom with me, yeah, that's my only government
Ain't removin' my covenant
Is it wrong I just wanna see all my brothers win?
Can't you see what we up against?
Went through trauma, that drama that might not come up again
See a problem, we runnin' in
Like it was a fire or somethin', the way that we wired is different than all
of the rest

When you go higher and higher, it's crazy how everyone hittin' you up with a
text
Now they sayin' I'm hot like a lighter, don't miss, but I 'member, back then
, wasn't hittin' the net
I've been chasin' the spirit, not chasin' the check
Went and got me a cure for the fear and the stress
Know they upset, they see me skippin' a step
When I look back, don't want no regrets, so I just-

Put my head down to the ground, know this ain't as big as it gets
Holdin' my horses, I had to sit down, I was trippin' and takin' a risk
Just 'cause the time runnin' down on the clock, know that don't mean that yo
u gotta blitz
Just chill and be patient, keep workin' on you and you'll see that thing com
in' in quick
