

# Same Sin

Caleb Gordon

Aye, 2000 EST

O, C, O, E, E

Look, yeah, yeah (yeah, yeah)

It's all the same, same, same, same, same, same sin in God's eyes  
Make sure you take out the plank out of your eyes  
Before you start sinning one side  
It starts in the mind, not in the action  
Divided the whole me, like a fraction  
Instead of me judging and dissing them all  
I said I am praying for all of my dogs  
It's all the same, same, same, same, same, same sin in God's eyes  
Make sure you take out the plank out of your eyes  
Before you start sinning one side  
It starts in the mind, not in the action  
Divided the whole me, like a fraction  
Instead of me judging and dissing them all  
I said I am praying for all of my dogs

It's all the same, same, same, same, same, same sin it don't matter what it is  
With the Blood he covered it  
Cause he knew that we never quit  
Know the flesh is in love with it  
But my Spirit so down with it  
Yet to run when trouble hit  
I don't want to be no hypocrite  
No the sins that I've done in my past I ain't proud of, how come?  
It's so many in the middle, Malcolm  
Get a deck, cause they don't know the outcome  
Living from day to day, but spiritually they gone pass away  
Lord, Lord I just ask you to save, the people that have gone astray  
While I pray, I ask you to give me grace, cause I know done the same thing

It's all the same, same, same, same, same, same sin in God's eyes  
Make sure you take out the plank out of your eyes  
Before you start sinning one side  
It starts in the mind, not in the action  
Divided the whole me, like a fraction  
Instead of me judging and dissing them all  
I said I am praying for all of my dogs  
It's all the same, same, same, same, same, same sin in God's eyes  
Make sure you take out the plank out of your eyes  
Before you start sinning one side  
It starts in the mind, not in the action  
Divided the whole me, like a fraction  
Instead of me judging and dissing them all  
I said I am praying for all of my dogs

It's all the same, same, same, same, same, same sin  
It's all the same, same, same, same, same, same sin  
It's all the same, same, same, same, same, same sin  
It's all the same, same, same, Its all the same  
It's all the same, It never change
