

Sit Down

Caleb Gordon

Ayy, 2000, E-S-T
That's that O-C-O-E-E
Mm-mm-mm
Yeah, huh

Better sit down if you can't stand me
This a God plan, ain't no Plan B
Huh, Spirit gon' take the wheel just like an AMG
Huh, took my time to heal, but now I'm on my feet
Huh, they don't want me, they wanna control me
Yeah, they don't want me, they wanna control-
They don't want me, they wanna control me
Treat you like my past, you can't hold me

All my pain, I would bury
Too long I would live in that house of pain like Tyler Perry
Thought I was strong, but it was too much weight I couldn't carry
No X-Men, I was just goin' through storms, Halle Berry
Now they think I'm arrogant 'cause I ain't use they way
I'm like David, I just need my sling, don't need your armor plate
God prepared me in that wilderness, them giants gon' get slaid
Try to tell me we can't do it, we gon' find another way, promise

Better sit down if you can't stand me
This a God plan, ain't no Plan B
Huh, Spirit gon' take the wheel just like an AMG
Huh, took my time to heal, but now I'm on my feet
Huh, they don't want me, they wanna control me
Yeah, they don't want me, they wanna control-
They don't want me, they wanna control me
Treat you like my past, you can't hold me

I'm from the O, but I'm not in Chicago
They think it's luck, I ain't playin' the lotto
I see the ship they ain't sayin' a lot of
They try to differ, they stay in the bottle
That type of heart keep you way at the bottom
Talkin' to get a react
They got a whole lot of time to go talk on the net
But where your consistency at?
Like, do what you do with the time that God gave you
You'd rather hate on folk
Me, I just look at the answer and I get to work, I can't wait on folks
Goin' up in age, that don't mean you wise, that just mean you old
It's easier to learn without no pride, I had to let that go

Better sit down if you can't stand me
This a God plan, ain't no Plan B
Huh, Spirit gon' take the wheel just like an AMG
Huh, took my time to heal, but now I'm on my feet
Huh, they don't want me, they wanna control me
Yeah, they don't want me, they wanna control-
They don't want me, they wanna control me
Treat you like my past, you can't hold me
