That's that OCOEE

Uh

Yeah, uh

Fell in love with Your timin' 'cause it's so divine  
Fell in love with Your way, I put it over mine  
I get in Your praises, put in overtime  
Lord, I get in Your praises, put in overtime  
How You do it all, it ain't no surprise  
I get in that passenger and let You drive  
Know what's mine is Yours, know what's Yours is mine  
When You open that door, then I gotta slide  
Uh, I gotta slide  
Mm-hmm

Know I had to rewind  
Know all them nights on my mind, was stuck on recline  
Wrote the vision down, it's been a minute since I revised  
Tryna fight the sentence in my jeans like some Levis  
Try to fight it all by myself, I can see why  
Know You be a tree vine  
I could never disconnect from you like I got three lines  
At each other, do something to myself, I threw the peace sign  
You told me I'd be fine, livin' water, seaside  
You was on that T side, even when they denied  
Love like a valentine, You said, "Would you be mine?"  
'Fore I even had a chance, before I got to decide  
Salvation with a combo, two piece with a free mind

Drink on the side, that's that holy water  
Be the salt, like the fries, I shake the Earth way  
And if that salt lose its taste, then it's good for nothin'  
You throw it out, the people stomp the yard, uh

Fell in love with Your timin' 'cause it's so divine  
Fell in love with Your way, I put it over mine  
I get in Your praises, put in overtime  
Lord, I get in Your praises, put in overtime  
How You do it all, it ain't no surprise

Know what's mine is Yours, know what's Yours is mine  
When You open that door, then I gotta slide  
Uh, I gotta slide  
Mm-hmm

Turn my night to days, my heart like page  
Know you wrote the book, turn it to Your ways  
Got the Holy Spirit, fine, you can keep the sage  
I'ma keep the faith

I'ma keep that drink on the side, that's that holy water  
Be the salt, like the fries, I shake the Earth way  
And if that salt lose its taste, then it's good for nothin'  
You throw it out, the people stomp the yard, uh
