

## So Sick

Caleb Gordon

So sick of seeing my people dyin', cryin', hurtin', stressin'  
Know that you gotta let go of a lot before you can get your blessin'  
Hear this lesson: even Jesus went through testin'  
When you hear this message, I hope it lead you to confession  
If you feelin' hurt, neglected: He been lovin' you, accept it  
If you feelin' lost, alone: come home, He can give you protection  
If you feelin' sick in the mind: He got the remedy for the infection  
If you sick of wastin' your time: He can redeem it like you never left it

King, Father, Son, You in the ring, I know You gonna fight for my soul  
Lucy want me gone, I know he wanna see me with a heart of stone  
Imma stick to the code, Da Vinci, know my heart was cold, Menchie's  
You pulled up so gently, gave me the keys  
Know who I'm gonna be, no Bently  
Open the door, let You in, You apart of me  
Know my beginning and my end, you know my prophecy  
Why would I let my pockets speak?  
That don't bring me close to you  
I'm crying out, I'm on my knees, I hope You don't walk out on me

So sick of seeing my people dyin', cryin', hurtin', stressin'  
Know that you gotta let go of a lot before you can get your blessin'  
Hear this lesson: even Jesus went through testin'  
When you hear this message, I hope it lead you to confession  
If you feelin' hurt, neglected: He been lovin' you, accept it  
If you feelin' lost, alone: come home, He can give you protection  
If you feelin' sick in the mind: He got the remedy for the infection  
If you sick of wastin' your time: He can redeem it like you never left it

I had to open the Testament  
See what it said 'bout the way that I feel  
Had so many questions  
I had to go find that by myself  
I had to go learn my lesson  
And You cleaned up my messes  
They want me to lean on everything else  
Instead Imma lean on You  
They want me to be like everybody else  
Instead Imma be like You  
X-ray vision, see right through  
Walk with the King, I'm a disciple  
Ragin', we gon' move like a bull  
Come and show me how to walk for You

So sick of seeing my people dyin', cryin', hurtin', stressin'  
Know that you gotta let go of a lot before you can get your blessin'  
Hear this lesson: even Jesus went through testin'  
When you hear this message, I hope it lead you to confession  
So sick of seeing my people dyin', cryin', hurtin', stressin'  
Know that you gotta let go of a lot before you can get your blessin'  
Hear this lesson: even Jesus went through testin'  
When you hear this message, I hope it lead you to confession
