

# Speak Life

Caleb Gordon

No I can't just let it spray  
I gotta watch what I say  
Speak life

Words too sharp steak knife  
I don't need to bark I don't bite  
Angels all around I don't fight

No more dark straight light  
Plans went left we alright  
Plans went left we alright  
Can't be upset  
We on to the next  
Nah we don't need to flex  
Nah we just need answers  
We got so many questions  
Still see pharisees  
That ain't who I'm tryna be  
Lord please lead me  
Need you to lead me

Tell me else matters

Ima all ears  
Elohim told me why I'm here  
Dominion  
Used to make moves for attention  
I got tired of pretending  
Like everything cool  
Like it ain't serious  
You never change till you fed up  
I had to get up I had to get up and go go go  
Make it happen  
Take a step  
If it don't work then I go back again  
If it don't work then I go back again  
Back like I left sum  
An I'm fly like jetson  
They like oh he the next one

But I don't even stress none seek the  
Kingdom the rest come

I need all of my bread crumbs

No I don't wanna waste none  
Nah I gatta flip sum  
God gave me the gift I can't bury it  
No I don't even know what I'm carrying  
Ride the beat like a fiery chariot  
Ride the beat like a fiery chariot  
I was chasing the green like asparagus  
But it's more to life I ain't talking drake  
Throw the love around like the offering plate  
My creator show me how to operate  
Like pinocchio  
I ain't lying though

This a Zion flow  
What I'm hiding for he see every side like  
Kaleidoscope and I'm shining whoa  
Cause he paid the toll I ain't have to ask  
But I gotta blast jimmy neutron  
They look at me crazy like what you on  
When the trouble come you be too calm

No I can't just let it spray  
I gotta watch what I say  
Speak life

Words too sharp steak knife  
I don't need to bark I don't bite  
Angels all around I don't fight

Honest dawg let's keep it honest dawg  
I do not pay attention to responses  
I do not pay attention to responses

I do not pay attention to responses  
Let's keep it honest

Tell me what else matters
