

# Speed Racer Love

Caleb Gordon

Had to slow down we were moving way too fast  
I was barley even friends with but wanted more than that  
We were both carrying baggage that we didn't even pack  
Yeah yes yeah  
Of course we didn't last

1st time we met tried to take to the end zone fast no  
We didn't even think about what happens after that  
Who you messin wit no I'm not afraid to ask  
It's so hard to leave when there's so many strings attached  
But my spirit telling me to stay away from that  
And my body telling my I cannot wait to crash  
We tried to cover up our feelings like a makeup bag

How can I love you when I never even seen it last  
Had to slow it down we was falling way to fast  
I was barley even friends with you but wanted more than  
That we were both carrying baggage that we didn't even Pack  
Yeah yeah yeah of course we didn't last

Had to slow it down we was falling way to fast  
I was barley even friends with you but wanted more than  
That we were both carrying baggage that we didn't even Pack  
Yeah yeah yeah of course we didn't last

We say we friends then we friends no don't think anything different  
It take time to see true colors I can't trust your first impression  
Cause as soon as you get comfortable that's when you started switching  
Uh uhh uhhh yeah  
It's so hard to make decisions  
When my heart is so entangled  
And my feelings got me trippin need 6feet keep yo distance  
So I can see what is and I can see what isn't  
Please don't Ask me who I'm talking to right now cause I'm just chillin  
No more hopping out relationships then hopping right back in it  
If we done we through we finished  
No more going back to back my heart can't take it  
I need healing Yahweh said stay on my purpose gave me time  
Can't let you steal it  
Can't let you steal it  
That's why I had too  
Slow it down we was falling way to fast  
I was barley even friends with you but wanted more than  
That we were both carrying baggage that we didn't even Pack  
Yeah yeah yeah of course we didn't last

Had to slow it down we was falling way to fast  
I was barley even friends with you but wanted more than  
That we were both carrying baggage that we didn't even Pack  
Yeah yeah yeah of course we didn't last  
And that goes for anything I ain't in no rush the faster you go the quicker  
it ends
