

Talk About It

Caleb Gordon

How you gon' look with yo eyes closed
Look lemme just tell you what I'm on
Because I'm on a whole other time zone
P-O-P say it happen it will
How do you know?
He did it before he gon' do it again
We 'bout to win
Killing the flesh, the spirit in the gym
Ram in the bush, I'm feeling like Tim

I can't just talk about it
No, I'ma be about it
I can't just talk about it, yeah

I can see
Without a vision you blind
Rain don't last forever
I know the sun gon' shine
Don't keep a lot on my mind
Don't keep a lot on my plate
I gotta step back and wait
Know we in two different seasons
I cannot move how you moving forreal
Pandemic got me confused
Calling my phone I ain't going
They be like boy you must be skrrd
No I ain't worried
I cannot follow the pack
I do not care what you heard
Phone is on do not disturb
I keep my head in the word
I keep my face in the book
This beat do not need a hook
Know the recipe, it just take some time to cook
Put the past to the left of me don't even look
Milly rocking the demons off me, got 'em shook
2020 I'm seeing clear Claritin
Pay attention and see the times that we in
You don't gotta show me a sign, let's begin

I can't just talk about it
No, I'ma be about it
I can't just talk about it, yeah

Gotta show love to my enemies
I can't just let anybody be friends with me
They just pretend to be
Got they hands up like give me all you energy
I'm sorry I can't entertain you
No, I do not blame you
No, I cannot change
But I got not time to play with you I gotta go

Talk about it
I can't just talk about it
No, I'ma be about it
No, I'ma be about it, yeah, yeah, yeah

Talk about it
I can't just talk about it
I can't just talk about it
No, I'ma be about it, yeah
