

# Turnt Up

Caleb Gordon

Ayy, what's the word, bruh? Uh  
I stay in the Book like a worm  
Uh, ayy, what's the word, huh?  
Yeah, I stay in the Book like a worm, ayy  
God told me, "Go", I'm like, "Sir, yes sir"  
Uh, there's so many things that I had to discern  
G-O-D saw the case like I was workin' at a firm  
Get the vision, write it down, I got everything affirmed

Uh, presidential out here movin' like it's my term  
They think it's aliens when I say I'm not from this Earth  
The ship be sailin' your direction, no, it ain't turn by turn  
Long as Your wind blows, no, I ain't worried

Ayy, Your presence got me turnt up  
I can't remember what got me worked up  
I said, Your presence got me turnt up  
I can't remember what got me worked up  
I said, Your presence got me turnt up (I'm turnt up)  
I can't remember what got me worked up  
I said, Your presence got me turnt up (I'm turnt up)  
I can't remember what got me worked up (It's your boy, Mike Teezy)

To the max, yeah, I'm turnt up (To the max)  
Old me, burnt up (Old ways)  
This wave about to take over the land, I'm yellin', "Surf's up" (Kowabunga)  
He can break off every chain with the first touch (With the first touch)  
That's why we liftin' up His name when we worship (Facts)  
And I can't remember what got me worked up (Got me worked up)  
Maybe 'cause I'm walkin' light, 'cause He took my burdens (Took 'em all, yeah, yeah)  
We on the south side of Eden, you know we ain't leavin', we feelin' elated (Feelin' elated)  
Shout-out to the Savior 'cause I had some debts, I rode different, He came and He paid it (Paid)  
Now He got me turnt

Ayy, Your presence got me turnt up (Uh, turnt)  
I can't remember what got me worked up  
I said, Your presence got me turnt up  
I can't remember what got me worked up  
I said, Your presence got me turnt up (I'm turnt up)  
I can't remember what got me worked up  
I said, Your presence got me turnt up (I'm turnt up)  
I can't remember what got me worked up (No, I can't remember)

Uh, presidential out here movin' like it's my term  
They think it's aliens when I say I'm not from this Earth  
The ship be sailin' your direction, no, it ain't turn by turn  
Long as Your wind blows, no, I ain't worried

Ayy, Your presence got me turnt up (Got me turnt up)  
I can't remember what got me worked up (No, I can't)  
I said, Your presence got me turnt up (Turnt to the max)  
I can't remember what got me worked up
