

Upside Down

Caleb Gordon

Alright, we gon' be alright
Over the dark clouds, I see the sunlight
Ayy, 2000, E-S-T
That's that O-C-O-E-E

Alright, we gon' be alright
Over the dark clouds, I see the sunlight
We'll hold you way down or we livin' upright, now we livin' upright
Now we livin' upside down, dog, it's upside down
It's upside down, dog, it's upside down
It's just one crown, dog, it's just one crown
It's just one crown, dog, it's just one crown, mm-hm

Mama told me, "Go to college," I ain't have a scholarship
Could've went to play ball, but I never polished it
I was late too often, I ain't even had a whip
Runnin' down Clark Borough 'cause I gotta clock in
It's gotta be another option, it's gotta be another option
Pops said, "Hit the seminary or the military," I was not in
I was just tryna ball out like the Sports Center, hit the top ten
Really tryna hit the top spot, I was tryna hit the top notch
Small town, had big dreams, tryna get it jumpin' like hopscotch
Late night to the early morning, we was cookin' up like crock pots
They doubted me on the way up, but I stayed up, I did not stop

Yeah, everybody tryna be number one
Stand on the treetops, but I know
When we stay low, we ain't gotta worry how high we go

Alright, we gon' be alright
Over the dark clouds, I see the sunlight
We'll hold you way down or we livin' upright, now we livin' upright
Now we livin' upside down, dog, it's upside down
It's upside down, dog, it's upside down
It's just one crown, dog, it's just one crown
It's just one crown, dog, it's just one crown, mm-hm

Mama said, "Go to college," I done dropped a con like Ye
I was tryna stake knowledge so I went to find another way
They like, "How you believe?" I went to the gym, I knew it would work out
They thought it would end, I'm still in my zone, I know it's a first down
Not an eagle, but I know it hurts when you feel like you put in the work
But nobody puttin' you first, and the pain you gotta rehearse
I was spendin' my time in the rain, I was spendin' my time in the dirt
'Til I met the One who reimbursed, got my time back like reverse

Yeah, everybody tryna be number one
Stand on the treetops, but I know
When we stay low, we ain't gotta worry how high we go

Alright, we gon' be alright
Over the dark clouds, I see the sunlight
We'll hold you way down or we livin' upright, now we livin' upright
Now we livin' upside down, dog, it's upside down
It's upside down, dog, it's upside down
It's just one crown, dog, it's just one crown
It's just one crown, dog, it's just one crown, mm-hm

Mama said, "Go to college," had to drop the con like Ye
It's just one crown, dog, it's just one crown
It's just one crown, dog, it's just one crown
