

Wherever I Go

Caleb Gordon

Sometimes having faith feel like walkin' on a tightrope
On thin ice, woah
I don't wanna fall, no
Trust in You, You know way more than I know
I know that I'm covered by the blood, like it's Geico
Dancing like David, I ain't dancing like Michael
Praise you 'fore I see it happen, I know how the fight go
I know the enemy wanna see me in a cycle
As long as I believe you follow me wherever I go, oh
As long as I believe you follow me wherever I go, oh
Oh, yeah, yeah, yeah, yeah, yeah, yeah, yeah

I know
Even 'fore I see it, I know
That's what I believe in my soul
You will never let me go, woah, woah
It gets so hard to follow the light in a world so dark
I heard everyone else in my mind, but was still so low, oh
The walls in my brain, I paint with the words you taught
And since You never left, I know you can right my wrongs

You know just what I need, yeah
Down bad, You set me up to receive Your love
They don't believe so they leave, Ya'
I know that You got a plan for me

When I don't know what the wind might bring
When the waves all around try to rock my peace
You keep my mind at ease
Even though I know, I know

Sometimes having faith feel like walkin' on a tightrope
On thin ice, woah
I don't wanna fall, no
Trust in You, You know way more than I know
I know that I'm covered by the blood, like it's Geico
Dancing like David, I ain't dancing like Michael
Praise you 'fore I see it happen, I know how the fight go
I know the enemy wanna see me in a cycle
As long as I believe you follow me wherever I go, oh
As long as I believe you follow me wherever I go, oh
Oh, yeah, yeah, yeah, yeah, yeah, yeah, yeah

I know
Even 'fore I see it, I know
That's what I believe in my soul
You will never let me go, woah, woah
It gets so hard to follow the light in a world so dark
I heard everyone else in my mind, but was still so low, oh
The walls in my brain, I paint with the words you taught
And since You never left, I know you can right my wrongs

You know just what I need, yeah
Never too slow, we gon' ride at Your speed, yeah
Where do you want me to go, let You lead, yeah
Know that it's under control-oh-oh

When I don't know what the wind might bring
When the waves all around try to rock my peace
You keep my mind at ease
Even though I know, I know

Sometimes having faith feel like walkin' on a tightrope
On thin ice, woah
