

Your Word My Mind

Caleb Gordon

Can't lie, took a little while to get my head right
Thoughts runnin', train track, through my mind every night
Can't believe I made it back, some people don't make it back
Can't believe I made it back, some people don't make it back
Now we where we left off
Checklist, checked off
Three, two, one, hold onto something, this is lift off
I can't lead the world, yeah

So got a gift, I give it all
I was moving Peter Parker, I was really off the wall
I was really off the rails, I was really Tony Hawk
Demons attack, I'm standing tall, somethin' like I'm Chris Bosh
I know that You paid it all
Can't believe You did it all for me
Please show me what You want me to be

I could sit up in Your presence forever
Every day feel like a lesson, I get better and better
Your word, my mind, that's what's keeping me together
Your word, my mind, that's what's keeping me together

Crazy how I even made it, where I am now
Back then I was moving goofy, now I stand out
Every step I make is calculated, planned out
You sleep if you think you'll catch me with my hand out
God can make a way

Trust me, I ain't had time
Now I got some time today
Demons try to get out of line
We gon' line 'em up today
Cut the old me away, like I got a fresh fade
In the word, early morning, it's gon' be a blessed day
Worship, that stay in rotation
Kirk Franklin, Brighter Day
Long as I'm the light, you won't ever take my light away
Jesus, He my fortress, you will never take my height away
Jesus, He my fortress, you will never take my height away

I could sit up in Your presence forever
Every day feel like a lesson, I get better and better
Your word, my mind, that's what's keeping me together
