Always Be

Caleb Hearn

You were there in times of need
Helped me up when I was weak
Showed me that it's okay to dream
And there's a world that I need to see
Pushed me further when I would give up
Pushed me harder when I would fall
You were there in my weakest moments
You told me that it's okay to crawl

But tell me now, how can I move on
If you're not here to see me through?
Tell me now, how do I do this?
Heavy weight that I can't pull
Tell me now, do I look stupid?
Chasing dreams that are far to reach
Tell me now from your point of view
That you're still here and you'll always be
You'll always be
You'll always be
You'll always be

And I know the hardest part is when you're not here
And I'm overtaken by my fears alone
I'm not okay

So tell me now, how can I move on
If you're not here to see me through?
Tell me now, how do I do this?
Heavy weight that I can't pull
Tell me now, do I look stupid?
Chasing dreams that are far to reach
Tell me now, from your point of view
That you're still here and you'll always be
You'll always be
You'll always be
You'll always be
