

Birthdays & Funerals

Caleb Hearn

I don't know who said
It's just a cake and a wish is a waste of your breath
I don't know who lied
And tried to convince you that grown ups are too old to cry

But you come alive when you think no ones watchin'
The colors get bright even when tears are fallin'
I love your mind when you think that you've lost it
So don't hide at all
'Cause darlin' I'm all in

I want your everything
Every single celebration
Every time your heart is breaking
I'll never leave
Can we be alive with the time we got?
Whether it's a day or a decade
The best or the worst case
The bruised and the beautiful
I want to hold you close
Through all the highs and lows
Birthdays and funerals

I don't know what you're fighting
But take off the armor
Even if it gets darker
I'm right, right here next to you
Till we're covered in flowers
I spend all my hours to prove

That you come alive when you think no ones watchin'
The colors get bright even when tears are fallin'
I love your mind when you think that you've lost it
So don't hide at all
'Cause darlin' I'm all in

I want your everything
Every single celebration
Every time your heart is breaking
I'll never leave
Can we be alive with the time we got?
Whether it's a day or a decade
The best or the worst case
The bruised and the beautiful
I want to hold you close
Through all the highs and lows
Birthdays and funerals
(Birthdays and funerals)
