

Last Breath

Caleb Hearn

One night was 2 before I could count
To three in the morning were on the couch
I fell 4 you before you fell asleep
Guess you made loving you easy

Five weeks of winter just came and went
Blink and it's 6 months, you're moving in
Next thing I know, I'm buying a ring
Guess you made loving you easy

Sometimes you just know

I wanna love you today and again
I wanna love you tomorrow and then
I wanna see where forever could end
Where it all ends
I wanna love you till I fall apart
I wanna walk with you into the dark
I wanna see where forever could end
I wanna love you
Until my last breath

Even when things aren't as simple
When life goes and gets in the middle
You're still the one, and you'll always be
Even when loving ain't easy

Sometimes you just know

I wanna love you today and again
I wanna love you tomorrow and then
I wanna see where forever could end
Where it all ends
I wanna love you till I fall apart
I wanna walk with you into the dark
I wanna see where forever could end
I wanna love you
Until my last breath
Until my last breath

When every second is already spent
I would do anything just for the chance
Darling to love you all over again
Over again
