

Need You Now

Caleb Hearn

I was numb to the pain
Then it pulled me down
Blood in my veins
That would drown me out, I'm sorry

Never knew what was standing right in front of me
'Til I saw you turn around and then suddenly
Opened up my eyes this time

(One, two, three, four)
I need you now more than ever, yeah, I see you now
Hear me out, give me one more chance to hit the ground
I see your number in my phone
I'm calling right now

I never knew I had something right in front of me
That would prove there was so much more than I can see
I see your number in my phone
I'm calling right now, yeah

Heartbreak is too fast
That's why I was so scared
To commit myself to you

But I see it in a whole new picture
You're not the same as the girls I met before
You got plans for what's so much bigger
And when I met you I just knew I needed more

You got your suitcase and you're really 'bout to leave me now
But girl, I see it so I'm really kind of freaking out
I guess you meant it when you said that you were leaving town

I never knew what was standing right in front of me
'Til I saw you turn around and then suddenly
Opened up my eyes this time

(One, two, three, four)
I need you now more than ever, yeah, I see you now
Hear me out, give me one more chance to hit the ground
I see your number in my phone
I'm calling right now

I never knew I had something right in front of me
That would prove there was so much more than I can see
I see your number in my phone I'm calling right now, yeah
