

never have i ever

Caleb Hearn

Oh oh oh oh oh oh oh
Oh oh oh oh oh oh oh

Never have I ever made Christmas plans in June
Or bought a stupid present I would never give you
Thought about a family, we're not even 22
It was nice to dream about how much I would mean to you

But who's gonna miss me now
And wish me happy birthday, is it selfish of me to say that
And who's gonna kiss me now
We didn't even get to that

Oh oh never have I ever seen a future together
Or talked about forever when we meant that we would never
Promised that wherever, like distance didn't matter
But if we were in love then wouldn't you and I be together

Oh oh oh oh oh oh oh
Wouldn't you and I be together
Oh oh oh oh oh oh oh

Never have I ever bought a ring and asked your dad
Or flew out to New York just to kiss you in a cab
I'm never gonna tell you that you left your favorite T-
shirt in my dresser
Cuz I pretend this ain't forever

But who's gonna miss me now
And wish me happy birthday, is it selfish of me to say that
And who's gonna be around
On our anniversary

Oh oh never have I ever seen a future together
Or talked about forever when we meant that we would never
Promised that wherever, like distance didn't matter
But if we were in love then wouldn't you and I be together

Oh oh oh oh oh oh oh
Wouldn't you and I be together
Oh oh oh oh oh oh oh

Never have I ever seen a future together
Or talked about forever when we meant that we would never
Promise when we're older, like maybe in the future
If we're still in love then you and I could be together
