

SILVER LINING

Caleb Hearn

Ooh

She shines like gold in every crowded room
She's the sun when I'm all doom and gloom
She paints the sky when I'm all out of blue

Ooh

On misty nights she guides me like the moon
Like a little kid who follows his balloon
She takes my pain and splits it into two

But lately I've been spinning out
I've fought and lost a thousand rounds
It's hurricanes and thunderclouds

Heaven knows I'm
Just a little exhausted
Livin' off my losses
If I'm being honest, I'm not alright
Just a little unsteady
Running on empty
Too old for my twenties, I'm not alright
Can you come and find me?
My silver lining

Ooh

Life turns right side up when I'm with you
All my favorite songs, they sound brand new
And for a moment I forget the truth

That lately I've been spinning out
I've fought and lost a thousand rounds
It's hurricanes and thunderclouds

Heaven knows I'm
Just a little exhausted
Livin' off my losses
If I'm being honest, I'm not alright
Just a little unsteady
Running on empty
Too old for my twenties, I'm not alright
Can you come and find me?
My silver lining

Heaven knows I'm
Just a little exhausted
Livin' off my losses
If I'm being honest, I'm not alright
Just a little unsteady
Running on empty
Too old for my twenties, I'm not alright
Can you come and find me?
My silver lining
