

Warm Body

Caleb Hearn

I wanna know
How far we'll go
Before it happens
If there's an expiration date
On all the magic
I wanna know
That if we make it
To the finish
That I'll go first
That it won't hurt
If I'm not living

But even if we're gray and old
I'll still have to let you go
So I don't want to get too close

It either never starts
Or it always ends
It either
Breaks your heart
Or it's gone too quick
It is what it is
Over again and again
It either
Never starts or it always ends

So what's the point
If either choice
Is gonna kill me
Could I just find a warm body
To lie here with me
And I won't care that she won't care
Maybe that's better
Then I could spare my heart
Thinking with my head first

But even if we're gray and old
I'll still have to let you go
So I don't want to get too close
Either it never starts
Or it always ends
It either
Breaks your heart

Or it's gone too quick
It is what it is
Over again and again
It either
Never starts or it always ends

I'm begging begging you stay
Or running running away
At the end of the day
I'm always
Begging begging you stay
Or running running away
At the end of the day

I'm always
Begging begging you stay
Or running running away
At the end of the day
I'm always
Begging begging you stay
Or running running away
At the end of the day
It always

Never starts
Or it always ends
