Constellation

Calexico

When reservoirs run dry
Celestial skies wane
Blurred with our naked eye
All we feel and hope to change

Shining in the night, shining from above
Shining in your eyes, the one you love
Never gonna leave, never gonna stray
Wrapped around your heart every night and day

When we lie on the roof
Constellations we name
Children shine like stars
As the moon chases the sun

Shining in the night, shining from above
Shining in your eyes, the one you love
Never gonna leave, never gonna stray
Wrapped around your heart every night and day

In these arms we call our home
If not for love we'd never know

Shining in the night, shining from above
Shining in your eyes, the one you love
Never gonna leave, never gonna stray
Wrapped around your heart every night and day

Shining in the night, shining from above
Shining in your eyes every night and day
