

## Float On

## Cali Life Style

This is a slow jam from me to you  
To tell you all the things that I wanna do  
I wanna kiss you and hug you, girl all night long  
To you fine lady I sing this song  
I know you've heard many lines before  
You need some good love, let me open the door  
To affection and love that you need real bad  
I always make you happy so you'll never be sad  
Come on girl, just give me the chance  
To take you out and start the romance  
I'll be so good and polite  
I'll never do you wrong, just treat you right  
Turn the records on, I rap you this love song  
Cause I'm telling you my feelings could never be wrong  
Cause I mean what I say  
Take it from me, girl I'm here to stay  
Because it's a possibility that we could get together  
Go for a walk, and make it last forever  
Let's not rush it, and go too fast  
Because a love like this should always last  
Forever, together, baby we will stay  
And when I hold you in my arms, girl I will say  
"I love you so much, yo can't you see"  
But will I see you again? It's a possibility

Come with me, baby and take my hand  
Float with me, baby to Lover's Land  
Let me show you, how sweet it could be  
Sharing love with me

Here's another slow jam from me to you  
Strictly because my heart is feeling for you  
Hey baby, you're one of a kind  
Now can I hold you in my arms and I call you mine?  
I squeeze you nice and tight so you know you're secure  
I want you in my life because we have a future  
Now remember, when we first met  
You were the cream of my crop  
You were the engine in my jet  
The only girl that I thought of  
I knew it right then, that I was in love  
So now I'm going to prove to you, that I'm for real

T's gonna throw down the line to tell you the deal  
Don't you miss hugging in the park  
Taking those walks in the dark  
Every time I see you, I hurt inside  
I try to talk to you, but I just lose my pride  
Every time I see you, I reminisce a lot  
My eyes get hazy, in my throat I get a knot  
All I want, is another chance to shower you with my love  
It's strictly romance  
Step to my love, don't be afraid  
Let's get closer and our hearts we could trade  
My emotions, is what hurts the worst  
If your heart was a drink, I'd be quenching for the thirst  
I love you so much, but you don't love me back

Let's get together and get on track  
We can start all over and spend quality time  
So listen to what I sing in this rhyme  
Kick back, baby and listen to my love song  
Is there a possibility that we could Float On?

Come with me, baby and take my hand  
Float with me, baby to Lover's Land  
Let me show you, how sweet it could be  
Sharing love with me

Baby, baby, baby I got so much love for you  
It's coming from my heart so you know it's true  
I wanna be with you girl and nobody else  
I love you, more than life itself  
If you gave me the chance to treat you right  
And we'd wine and dine all through the night  
I'd be leaping tall buildings in a single bound  
I'll always make you smile, I'd never make you frown  
My heart's like a lock and you got the key  
And can we get together, it's a possibility  
Cause you see, you make my life complete  
And I'll love you now from until eternity  
I think about you everyday, in almost every way  
Let's get together and let's start to play  
This love game and let me tell you how I feel  
Cause the rhymes that I'm singing, you know they're for real  
Let me take you by the hand and whisper in your ear  
And tell you all the things that you wanna hear  
Look baby, it won't take too long  
And I hope that there's a chance for us to Float On

Come with me, baby and take my hand  
Float with me, baby to Lover's Land  
Let me show you, how sweet it could be  
Sharing love with me

So C.L.S. why don't you sing that love song?  
Show the ladies you can Float On  
Just Float On  
C'mon, C'mon, C'mon baby  
Float On
