

Alien

Caliban

I'm a dreamer
My roots are inside of me
I'm a loner
I am debris
I'm walking on clouds
Restless but deeply at ease
Into the now

Would you follow me?
Would you follow me?

I am an alien
I wander alone into the unknown
I am an alien
I'm coming home wherever I go

Where do you belong?
Where do you belong?

I'm never alone, I'm never alone
The self and the shadow
I can't let it go
I'm coming home wherever I go
My heart is the root
From which everything grows

Would you follow me?

I am an alien
I wander alone into the unknown
I am an alien
I'm coming home wherever I go

Where do you belong?
You belong to no one
Where do you belong?
You belong to no one

I am an alien
I wander alone into the unknown
I am an alien
I'm coming home wherever I go

Where do you belong?
You belong to no one
Where do you belong?
You belong to no one
