

# Back From Hell

Caliban

Haunted by my memories  
I'm the shark caught in a net  
Wanted by my enemies  
But I'll chop off all them heads

Black my fantasy  
Tortured by fear and regrets  
Wrecked toxic chemistry  
A victim whose blood has been shed!

Rise from the ashes  
Back from the darkness  
I've been searching for a matching for too long  
Rise from the ashes  
Back from the darkness  
Trying to find a reason to hold on  
Back from the darkness

Darkness there's no remedy  
When the clouds begin to bleed!  
Sharpest blade to cut that deep  
Holy mother set me free!  
Mother set me free!  
I was doomed to live in pain, but I will not accept defeat!

Rise from the ashes  
Back from the darkness  
I've been searching for a matching for too long  
Rise from the ashes  
Back from the darkness  
Trying to find a reason to hold on  
Back from the darkness

Back from hell

Back from hell  
Back from hell  
Back from hell  
I'm back from fucking hell

(Rise from the ashes  
Back from the darkness  
I've been searching for a matching for too long...)
