

# Incomplete

Caliban

I will not forgive, I will not forget  
I will not forgive, I will not forget

My heart it stops, it starts, once close now far apart  
I'm here, but I'm not, and I feel nothing, but incomplete  
There's nothing left to say, you threw it all away  
We've drifted apart so lang ago, so faraway

You made me incomplete  
Cause you're the stranger inside of me  
And now I know, you are no missing piece  
Cause you're the stranger inside of me  
Love's long gone!

I will not forgive, I will not forget  
I will not forgive, I will not forget

You know nothing, nothing of me  
No matter what you think you see!  
You Know nothing, nothing of me  
You've opened my eyes and now I'm free  
You know nothing, nothing of me, you make me sick!

My heart it stops, it stars, once close now far apart  
I'm here, but I'm not and I feel nothing, but incomplete

You made me incomplete  
Cause you're the stranger inside of me  
And now I know you are no missing peace  
Cause you're the stranger inside of me  
Love's long gone!

I will not forgive, I will not forget!
