

Overdrive

Caliban

I won't bow down!

I won't bow down

Can't slow down, can't get rest
It's like a fire in my mind
It's like a burning carousel
Caught in rewind

I feel the urge to feed my needs
I know you like to watch me bleed
I know it hurts to set me free
Your demise - my dopamine

I'm chasing the demons that I can't forget
I'm driven by madness with no regrets
I will not rest until I take what's mine
My head is stuck in overdrive

I won't bow down!

You can't slow down, you can't get rest
It's like a never ending test
You're like a burning carousel
But you still fuel the fire

You feel the urge to watch me bleed
But all I want is to feed my needs
I know you'll never set me free
My demise - your dopamine

I'm chasing the demons that I can't forget
I'm driven by madness with no regrets
I will not rest until I take what's mine
My head is stuck in overdrive
Overdrive
Overdrive

I feel the urge to watch the earth bleed
'Cause all I want is a tragic ending

Over...
