

## Walk Alone

Caliban

Can't you hear them craving (crawling) face down in the dirt!?  
Can't you hear their voice (fading) dying to be heard!?  
This is their last resort, but they won't be heard  
This is heaven's end (a) barb wired promised land  
Open the gates - break down the walls

We walk alone on burning ground  
Don't drown just now  
Walk on with hope in your heart  
Don't drown just now  
We walk alone...

Can't you see them drowning (choking) no more breath inside!?  
Can't you see their pain with their desperate eyes!?  
We build the highest walls we dig the deepest graves  
(but) it's all in our hands  
Wake up and be the change - right now!  
Open the gates - break down the walls

We walk alone on burning ground  
Don't drown just now  
Walk on with hope in your heart  
Don't drown just now  
We walk alone...

This is the curse of our world, heaven and hell  
Tear it down!

We walk alone on burning ground  
Don't drown just now  
Walk on with hope in your heart  
Don't drown just now  
We walk alone...

This is the curse of our world!
