

# We Are The Many

Caliban

You've gotta be fucking kidding me!?

We are, we are one voice, one heart!  
We are, we are one voice!

You sound like a broken record,  
Different words for the same old lies,  
You know we'll be the ones who suffer,  
You gain power while we pay the price.  
Every time you open your mouth,  
You spread a disease!  
You try to make us voiceless,  
You try to make us believe...

We are the many, like drops of water,  
Alone we are nothing, together we're crushing.  
We are the many, like a plague of locusts,  
Alone we are nothing, together we're crushing.  
We are the many!  
Alone we are nothing, together we're crushing!  
We are the many!  
Alone we are nothing, together we're crushing!  
We are, we are one voice - One heart!

Any disaster is very welcome  
In the darkest days you promise the sun.  
Like the savior of a world in debris?  
Yeah right, you've gotta be fucking kidding me!?

You've gotta be fucking kidding me!?  
You've gotta be fucking kidding me!?

We are the many, like drops of water,  
Alone we are nothing, together we're crushing.  
We are the many, like a plague of locusts,  
Alone we are nothing, together we're crushing.  
We are the many!  
Alone we are nothing, together we're crushing!  
We are the many!  
Alone we are nothing, together we're crushing!  
We are, we are one voice - One heart!

One voice, one heart!

You've gotta be fucking kidding me!?  
You've gotta be fucking kidding me!?  
You've gotta be fucking kidding me!?  
You've gotta be fucking kidding me!?

One voice, one heart!

We are the many, like drops of water,  
Alone we are nothing, together we're crushing.  
We are the many, like a plague of locusts,  
Alone we are nothing, together we're crushing.  
We are the many!  
Alone we are nothing, together we're crushing!

We are the many!

Alone we are nothing, together we're crushing!

We are, we are one voice - One heart!
