

## Better Angels

Califone

William hovers bear trap teeth  
Tender necks on tender knives

Cindy prone hung by heat  
Soaks her dress in a long convulsion

-unremembering/nest on winter/bears/on broken trees that  
we can last (eat each other)

orbits crack spring comes late william sheds another wife  
wrists for pulses seed the clouds quiet as the first snow

-cold logic now/her hot tears make me erect/the shred of  
hope that we could last

vexations gathering to re-assemble our impasse  
better angles drunk adn slow sung to sleep in kitchen  
Spanish

unremembering/nest on winter/bears/on broken trees that  
we can last (eat each other)

better angels of our nature  
mercy mercy let this change take  
winter bears dream kitchen Spanish  
mercy mercy let this healing take
