

## Slower Twin

Califone

another story drains as the famine breaks  
daylight along the grain  
against your warm weight  
quicksand and cradlesnakes  
everything you think you know is wrong  
egg white fire  
in a sheepish orbit  
tin ears for blue screen arms  
oil the string and wind the wheel  
box office poison day  
liberty waste a favor on  
you been the slower twin all along  
shone like shone like easy mothering  
to come easy dead eye wrong  
tin muse for watery ears  
shone like shone like  
slower twin slower twin
