

Dream The Dead

Caligula's Horse

Never felt like this before, like the window in the water
Worlds of worthy sacrifice
But you made me feel alive like the light through dreamers eyes
I'm taking what I need

Can't stop what you've begun, like
Can't drown the morning sun again
Would it kill to let you die? (for this)
(Give it to me) Can't stop what you've begun
(Give it to me) Can't drown the morning sunlight
Crying out, I'm begging you for this

Leave us to dream the dead, sing it loud
Legacy means it's over, sober
Leave us to dream the dead, sing it loud
Begging to justify it, admire it

Dream what I need and nothing more, no more, no
Dream what I need and nothing more (Give it to me)

You've wasted heaven on saving yourself
So give me your broken shadow
So feed me empty echo
Pay me, pay me what you owe

Can't stop what you've begun, like
Can't drown the morning sunlight
Crying out, I'm begging you for this

Leave us to dream the dead, sing it loud
Legacy means it's over, sober
Leave us to dream the dead, sing it loud
Begging to justify it, admire it

Give it to me to build a world for a moment
You have the might to bring the light to life
And then I stood, overcome for a moment
Can't stop, show me that I need you (Dream the dead)
Can't stop and that means I need you (Dream the dead)
But you can't stop, show me that I need you (Dream the dead)
But you can't stop, but it showed me it's all we can hope for

We will remember the colour and the comfort
We laid to rest, the poison's sweet just stand and deliver
We will remember the sorrow in the swan song
Now laid to rest, the poison's sweet but nothing lasts forever
We will remember the colour and the comfort
We laid to rest, the poison's sweet just stand and deliver
We will remember the sorrow in the swan song
Now laid to rest, the poison's sweet but nothing lasts forever
