

Love Conquers All

Caligula's Horse

Need some time to make it right
Mountain mine, I lost my fight
Mountain mine, just give me time

The beast that I have become could set me free of this
If only I had the time, if only these hands were mine
Without the musing I lost, without the sweet taste on my tongue
I don't need the strength to fight, no
Only to stand in the light

Need some time to make it right (for a little while)
I need some time to make it right, please
