

## Dead Body

Call Me Karizma

Noose around my neck  
Kick the fucking chair out from under me  
Stab me in the back  
But you're mad I got my blood on your new white T

Whoa  
Throw me in the cold  
Toss me in the pit  
With the wolves  
Tear me to the bone  
Rip me out my skin  
It's getting old  
Always being told everything I did  
Ain't enough  
What the fuck is that shit?  
(What the fuck?)

Left me alone and starving  
But now you wanna come and crash my party  
Over my grave, over my grave, over my  
Over my grave, over my dead body  
Your heart's as black as coffee  
So who the fuck are you to sit and judge me  
Over my grave, over my grave, over my  
Over my grave, over my dead body

Drag me through the fire  
Your favorite thing to do is to watch me scream  
Baby you're a liar  
Tell me what I wanna hear to get me out my jeans

Whoa  
Throw me in the cold  
Toss me in the pit  
With the wolves  
Tear me to the bone  
Rip me out my skin  
It's getting old  
Always being told everything I did  
Ain't enough  
What the fuck is that shit?  
(What the fuck?)

Left me alone and starving  
But now you wanna come and crash my party  
Over my grave, over my grave, over my  
Over my grave, over my dead body  
Your heart's as black as coffee  
So who the fuck are you to sit and judge me  
Over my grave, over my grave, over my  
Over my grave, over my dead body

We have so much history  
I can't take it with me  
I'd rather be six feet  
Buried with my six-string

Left me alone and starving  
But now you wanna come and crash my party  
Over my grave, over my grave, over my  
Over my grave, over my dead body  
Your heart's as black as coffee  
So who the fuck are you to sit and judge me  
Over my grave, over my grave, over my  
Over my grave, over my dead body
